

117th Court North

Project Manager: Todd Engle, City Engineer

Project Narrative: With Palm Beach County School Board approval, 117thCourt North was deeded to the City in June 2016, allowing the City to immediately begin widening the road. 117th Court North Expansion project consists of intersection and roadway improvements necessary to accommodate safe travel of vehicles to schools and parks. School drop-off/pick-up at both Timber Trace Elementary and Duncan Middle School has long been a challenge for parents and buses. A wider road will allow for more vehicle stacking as motorists enter and exit the school. It will also allow traffic to access the Tennis Center and City Park via an extra lane that will allow it to bypass school traffic. The project takes into account pedestrian safety and safe ingress/egress of vehicles looking to access the schools and parks.

Project Name:	117th Court North Expansion
Project Location:	117th Court North
Budgeted Construction Cost:	\$1,750,000
Funding Source	General Fund
Engineer/Architect/Designer:	Simmons and White
Start Date:	Summer 2016
Completion Date:	Project Complete 
Roadway Improvement Plan:	Click to view
