

### **Child Passenger Safety Seat Check**

Our CPS Technicians have been through a 32 hour training program and have obtained basic technical skills, experience and knowledge of the proper use and installation of child passenger safety seats. To keep apprised of the technological changes and Federal regulations that affect the correct installation of child safety seats, our CPS Technicians must be recertified every two years.

Our CPS Technicians have the knowledge and skills to:

- ▶ Secure children in appropriate child restraint systems
- ▶ Install child restraint systems in multiple type of vehicles
- ▶ Educate others on how to correctly install child restraint systems in their vehicles
- ▶ Educate others about how to properly restrain children in motor vehicles
- ▶ Use appropriate resources to retrieve information related to CPS
- ▶ Obtain information from CPS resources in response to requests for information that is not readily available.

Car seat installations are done on the first and third Thursday every month, by appointment only, for Palm Beach Gardens Residents only. Please contact Issy Buxeda at 561.799.4592 or feel free to [e-mail her](#) to schedule an appointment. Please plan on spending at least one hour for your appointment.
